

Distributor Bulletin 2008-12

Date: October 23, 2008
To: OPW Fueling Containment Systems Distributors, Sales Managers, Employees, Customer Service
From: Gene Hunt, Product Specialist
Subject: Dispenser Sump Remodel

FlexWorks Dispenser Sump DS-1836: OPW Fueling Containment Systems is proud to announce the introduction of our newly remodeled DS-1836 Dispenser Sump with custom electrical knock outs in the sump frame. This sump is for use with the Gilbarco Encore Dispenser and the knock outs in the frame match the perimeter knock outs of the Encore Dispenser. In addition, the DS-1836 also has molded conduit channels in the body of the sump for installation of multiple electrical conduit outside of the sump perimeter. This eliminates the use of Conduit Entry Boot Fittings, and lessens the number of potential leak points in the sump.

As always, everyone at OPW Fueling Containment Systems appreciates your business and continued support. If you have any questions, please feel free to contact our Customer Service department at 1-800-422-2525, or you can contact Gene Hunt, Product Specialist, at 1-919-934-2786 Extension 104.
